

OLT: to find half and quarter of numbers.

To be successful

- Divide into 2 equal groups
- Divide each half into another half to make 4 equal sized groups
- Count how many in each group

$$\frac{1}{2} \text{ of } 12 =$$

$$\frac{1}{4} \text{ of } 12 =$$

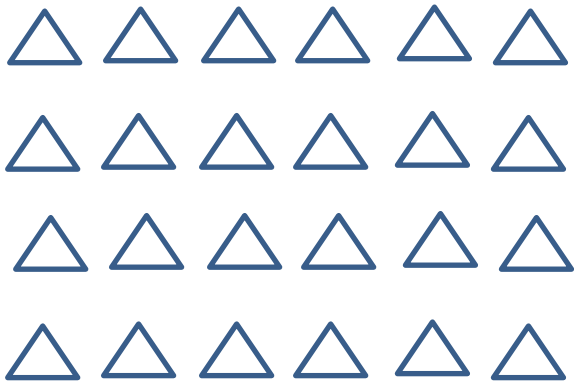

$$\frac{1}{2} \text{ of } 8 =$$

$$\frac{1}{4} \text{ of } 8 =$$

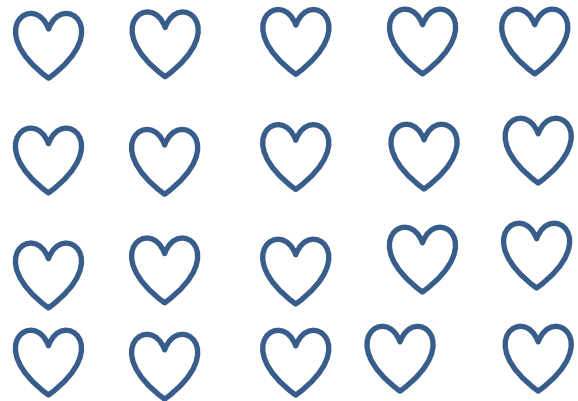

$$\frac{1}{2} \text{ of } 24 =$$

$$\frac{1}{4} \text{ of } 24 =$$

$$\frac{1}{2} \text{ of } 20 =$$

$$\frac{1}{4} \text{ of } 20 =$$

$$\frac{1}{2} \text{ of } 16 =$$

$$\frac{1}{4} \text{ of } 16 =$$

$$\frac{1}{2} \text{ of } 28 =$$

$$\frac{1}{4} \text{ of } 28 =$$
