

Order the fractions from biggest to smallest.

$\frac{1}{3}, \frac{1}{4}, \frac{1}{2}, \frac{1}{100}, \frac{1}{7}$ e.g. $\frac{1}{2}, \frac{1}{3}, \frac{1}{4}, \frac{1}{7}, \frac{1}{100}$	$\frac{1}{5}, \frac{1}{12}, \frac{1}{15}, \frac{1}{3}, \frac{1}{9}$
$\frac{1}{10}, \frac{1}{9}, \frac{1}{64}, \frac{1}{16}, \frac{1}{32}$	$\frac{1}{6}, \frac{1}{4}, \frac{1}{30}, \frac{1}{25}, \frac{1}{8}$
$\frac{1}{3}, \frac{1}{2}, \frac{1}{20}, \frac{1}{8}, \frac{1}{100}$	$\frac{1}{4}, \frac{1}{14}, \frac{1}{2}, \frac{1}{64}, \frac{1}{6}$
$\frac{1}{5}, \frac{1}{13}, \frac{1}{7}, \frac{1}{3}, \frac{1}{9}$	$\frac{1}{99}, \frac{1}{64}, \frac{1}{122}, \frac{1}{4}, \frac{1}{3}$
$\frac{1}{8}, \frac{1}{24}, \frac{1}{82}, \frac{1}{3}, \frac{1}{2}$	$\frac{1}{12}, \frac{1}{24}, \frac{1}{6}, \frac{1}{7}, \frac{1}{17}$

Top tip: The smaller the denominator (bottom number) the bigger the fraction.
