

Get Building

We have been hearing a lot about Stockbridge, in Edinburgh, where Murdo lives. Now it's time to have some fun and build your own Stockbridge.

You can use **whatever** you like: Lego or other building blocks, recycled packaging and junk, use natural objects you find on your daily walk or just have fun and draw the street!

You can use real shops that are based in Stockbridge now, shops you hear about in the book, shops you have made up or a mix of them all!

We would love to see your creations and so would **Mike Nicholson!** You can tweet him to let him see what you come up with! Tweet him at **@writerblighter!**
