

HOW TO TAKE EFFECT NOTES

This lesson will be taught during the afternoon call on Monday 25th February.

You can complete it before this time or as part of the lesson to get ideas from your peers.

It is better to handwrite your notes than use the computer as your brain remembers more information with handwritten notes.

You don't have to use this document. You can just hand write and take a photo for the assignment.

1. Watch the first part of the Power Point presentation.
2. Gather some pens, pencils and some writing paper.
3. Take some notes from the slide about Lions (slide 5)
