

Sorting and Counting

This week we have continued our sorting and counting maths theme. We decided to take our learning outdoors with Miss Menzies and she brought some hot chocolate to enjoy after our activity. We sorted items into different groups and explained why we thought the object should go into that group. We had a hair salon in nursery this week and enjoyed creating lots of fancy hairstyles.

Health and Wellbeing

We went to the gym hall this week for PE and practised our forward rolls, throwing and catching skills and turn taking with games. This week was anti-bullying week and so we discussed what is kindness and what are positive actions and words. We made kindness flowers and began to learn a song about kindness.

Outdoor Play

We went on a lovely nature walk and explored our beautiful surroundings. We enjoyed listening to the birds singing in the trees. We also painted material that we are going to use to create a den in the nursery.

Other Information

Please continue to tell us about any wider achievements or special occasions your child may have to allow us to celebrate these in nursery on our "Awesome Wall."

We are still on the lookout for anyone who can help us either with supplying materials or labour to construct a little outdoor reading nook for our outdoor play area please can you get in touch with a member of nursery staff.

We would greatly appreciate any donations of clothing that you are no longer requiring to allow us to have a supply of emergency clothing in nursery. Thank you to the parents who have already brought in clothes.

Next week we will have a parent board in the foyer area where we will post information that may be useful and information on what we are exploring in nursery, upcoming important dates and anything that we may be collecting for a project.
